

VeroLead AI

Enterprise Voice-AI Lead Assistant for High-Volume Inbound Operations

PRODUCT OVERVIEW

VeroLead AI is a specialized, enterprise-grade AI Voice Assistant engineered by Digitos IT Solution Pvt Ltd. It acts as an intelligent, autonomous frontline for businesses processing high volumes of inbound inquiries. In a digital economy that never sleeps, VeroLead AI ensures that every phone call is answered instantly and every lead is qualified professionally.

Core Problem Solved: Modern enterprises lose significant revenue due to "lead decay"—the failure to respond to an inquiry within the critical first five minutes. VeroLead AI eliminates this bottleneck by providing instant, 24/7 intelligent interaction.

KEY VALUE PROPOSITION

24/7 Inbound Automation

Provide a premium, branded experience for every caller regardless of time-zone or office hours. Our AI eliminates the "closed for business" barrier.

Autonomous Qualification

The AI filters and qualifies callers based on your specific criteria—budget, timeline, and intent—before they ever reach your core human team.

Accelerated Sales Cycle

By capturing intent at the moment of peak interest, you move prospects through the funnel faster, drastically increasing the probability of conversion.

Infinite Scalability

Handle hundreds of concurrent calls without the administrative overhead of a traditional call centre. Scale your capacity instantly without increasing payroll.

LIVE EXPERIENCE EXAMPLE

Vero AI: Thank you for calling [Company Name]. My name is Vero, your AI assistant. Are you calling for a new consultation, support, or an existing project?

Caller: Hi, I'm interested in a consultation. We saw your enterprise package online.

Vero AI: I'd be happy to assist. May I have your name and the industry your company operates in?

Caller: I'm Sarah, and we are in the logistics sector.

Vero AI: Great, Sarah. To match you with the right specialist, what is the estimated budget or scale you are planning for this project?

Caller: We are looking at around \$10,000 for the initial rollout.

Vero AI: Perfect. I am notifying our Enterprise Division now. You will receive an SMS confirmation shortly with our service brochure.

HOW VEROLEAD AI WORKS

01. Inbound Routing: Calls from ads, websites, or third-party listings are routed to the VeroLead AI gateway.

02. Intelligent Engagement: The AI provides a custom, branded greeting and identifies the intent of the call (Sales, Inquiry, Support).

03. Structured Data Capture: The AI extracts vital data points through natural conversation: Name, Requirements, Budget, and Timeline.

04. Real-Time Quality Scoring: Leads are scored (Strong / Medium / Weak) based on urgency and project fit.

05. Instant CRM Sync: Data is synchronized with your CRM and a notification is sent to the relevant department via WhatsApp, SMS, or Email.

CORE FEATURES

- **Advanced Intent Detection:** Uses NLP to understand complex queries and distinguish between serious buyers and informational browsers.
- **Dynamic Lead Scoring:** Ranks leads automatically based on urgency and budget alignment.
- **Multi-Channel Notifications:** Alerts teams via WhatsApp, SMS, and Email with full call transcripts.
- **Concurrent Call Handling:** High-bandwidth processing allows unlimited simultaneous sessions; clients never hear a busy tone.
- **Global Dialect Processing:** Optimized to recognize various accents and speech patterns for international markets.

INDUSTRIES & USE CASES

- **Professional Services:** Handling new client inquiries and discovery calls for legal, finance, and consulting firms.
- **SaaS & Technology:** Automating demo requests and trial qualifications.
- **Healthcare & Clinics:** Managing patient intake and appointment scheduling 24/7.
- **Supply Chain & Logistics:** Processing high-volume inquiries and service requests from global partners.
